

Dante

CUCINA ITALIANA

The poet Dante Alighieri was born in 1265 in the Florentine Republic, a medieval and early modern state in today's Italian Tuscany.

Dante is best known for writing some of the greatest literary works in Italian language, such as the 'Divine Comedy', published between 1304 and 1321.

The same medieval period saw gastronomy taking a big step forward, with the publication of the very first cook book in Latin, the 'Liber de Coquina'.

Dante frequently referenced Italian gastronomy in his 'Divine Comedy' and to celebrate these coinciding ancient events, we named this Dante menu 'Liber de Coquina'.

Dante restaurant brings to you the best of Italian cuisine and we hope that to you, it will look, feel and taste like poetry.
